VOTING FOR SENATORS.

An article in the Spokane Falls Chronicle of recent date indicates that in Washington, as well as in Montana, the volunteer and amateur constitution-maker is busy making suggestions.

claims of the colored race. In connection with Mr. Townsend's selection, it is interesting to note that about half of the feminine clerks in the division over which he will preside have made haste to apply for transfer to some other bureau.

The talk of making Prince George of Wales Lord Lieutenant of Ireland is probably without much foundation. The prince has neither the age nor the native ability that would qualify him for such a post, and his assignment to Dublin castle in the present state of affairs in Ireland would have a bad effect for the British government. It is probably, however, merely newspaper rumor, for the recent course of the government has shown that the need of men of experience in public affairs in that particular position is fully appreciated.

THE DORSEY-MILLER cattle and beef trust does not hold out any very bright hope for the future of the live stock growers of the west. There is every indication, on the contrary, that the benefits of the combination will all accrue to the operators rather than to the producers. Mr. Miller's connection with the wood-pulp trust is ominous for the protection of the wolves give the sheep. Mr. Dorsey, too, has not always been above connection with monopolies—as in the letting of star route mail contracts, for example.

The newspapers both of Wyoming and Idaho are agitating the question of statehood, and there is a strong probability that conventions will be held in both territories for the formation of state constitutions. Montana will be glad to welcome her two sisters into the union as soon as they can present themselves for admission properly clothed.

PERSONS AND THINGS.

In Great Britain, last year, 919 persons were killed and 8,326 injured on the railways.

The German Emperor and Empress will spend the summer chiefly at Reichenhall, Bavaria.

Smallpox is reported to be raging among the Okanagan Indians. Physicians have been sent to vaccinate the tribe.

The Times-Independent of San Bernardino is so much to encourage the Chinese in that direction. Senatorial contests have as a rule not developed until after the election of the legislature, and the votes upon that question have been uniformly small—so small that the members have not deemed themselves under any obligation to pay the least attention to them. The legislature is to do so.

Instructions from the people; to do so would be a virtual abdication of its functions. It is within the memory of men still young that the legislatures of several of the states undertook to instruct the United States senators how they should vote upon certain questions—notably the impeachment of President Johnson—but none of the senators so instructed paid the slightest heed, exercising their own discretion as they saw fit to do. The case of the people assuming to direct the votes of representatives in the state legislature is precisely analogous. While the provision of the United States constitution stands as above quoted, the adoption of a rule similar to that in force in Nebraska is inadvisable and will not be considered by an intelligent convention such as will assemble in Helena on July 4.

REFORMATORY OR PRISON.

A proposition is before the legislature of Illinois looking toward the conversion of one of the state penitentiaries into a reformatory, where prisoners may be classified according to the degree of their iniquity they may be supposed to have attained. The plan embraces, also, the uniforming of the different classes in such a way as to indicate the grades in which they may have been placed.

The theory, of course, is that there are some who find their way into the penitentiaries rather than because they are hardened criminals, and that while contact with the more vicious inmates of a prison may develop in them all the latent vice of their natures, a proper regard for their moral training may result in making of them useful and honest members of society. It is an old story that a mistake—a momentary passion—may bring a man or woman under the ban of that divinity who is popularly supposed to be blind and that it were not for that stigma which attaches to a person who has served a term in prison they might redeem their reputations and thereafter avoid the ways of the criminal class. Whether the distinction between a reformatory and a state prison would be sufficient to alter the situation may well be doubted. What is needed in order to enable ex-convicts to regain a position in society is more tolerance upon the part of people in general and willingness to permit such a person to demonstrate his intention of leading an honest life. This condition is closely allied to the millennial period, which, it is to be feared, is still far distant.

Whatever may become of the Illinois proposition, something can and should be done in all communities to keep the young offenders separated from the old and hardened criminals who constitute the principal portion of the inmate of county jails. Proper efforts in this direction will have a tendency to restrict the recruiting of the ranks of crime from the youth of the country.

GOV. FORAKER is said to have won a victory over Senator Sherman in securing the calling of the republican state convention for June 25 instead of August 26, as was desired by Mr. Sherman's friends. The statement is freely made that Gov. Foraker has made a combination with Speaker Lamson, of the state legislature, whereby the former is to be renominated, with Lamson for lieutenant governor; that when the legislature meets in January Foraker is to be elected senator in place of Payne, whereupon Lamson will succeed to the gubernatorial office. In the meantime it must not be supposed that Senator Sherman and ex-Gov. Foster are oblivious to what is transpiring. They will yet rise to be heard in the matter.

TWO COLORED MEN have been appointed to positions of importance under the present administration—John R. Lynch, of Mississippi, to be fourth auditor of the treasury, and Rev. James Townsend, of Indiana, to be recorder of the general land office. The latter appointment, however, may be credited to Indiana rather than to any recognition of the

claims of the colored race. In connection with Mr. Townsend's selection, it is interesting to note that about half of the feminine clerks in the division over which he will preside have made haste to apply for transfer to some other bureau.

## Liver Disorders

Soon cause the blood to become contaminated and require prompt treatment. The most marked symptoms are loss of appetite, headache, pains in the back or side, nausea, and relaxation of the bowels. Ayer's Pills assist nature to expel the superabundant bile and thus restore the purity of the blood. Being purely vegetable and sugar-coated, they are pleasant to take, mild in operation, and without ill effects.

"After many years' experience with Ayer's Pills as a remedy for the large number of ailments caused by derangements of the liver, peculiar to malarial localities, simple justice prompts me to express my very high appreciation of the merits of this medicine for the class of disorders I have named."—S. L. Longbridge, Bryan, Texas.

"I had tried almost everything for chronic liver complaint, but received no relief until I used Ayer's Pills. I and them invaluable."—W. Watson, 77 East Illinois st., Chicago, Ill.
